PRS

Their battle with Gibson
and how it affects you

May 2007 | \$5.49 US

PRS

vs

Gibson

Their legal battle and what it means to you.

Gibson Guitar Corp. in the United States District Court for the Middle District of Tennessee has won a landmark trademark infringement case against manufacturer Paul Reed Smith. The claim involved Gibson's Les Paul single cutaway guitar with a body design which Paul Reed Smith used without permission or compensation to Gibson. This case declared that Paul Reed Smith infringed on Gibson's valid trademark.

Gibson Guitar claimed that the Paul Reed Smith "Singlecut" guitar infringed on the company's trademark which is registered for its Les Paul single cutaway guitar. Included in the claim is the fact that the Paul Reed Smith model unjustly used the Les Paul design and would cause confusion in the marketplace and damages to Gibson Guitar, the amount of which will now be determined in the next phase of the proceedings.

Gibson's Les Paul single cutaway guitar is traditionally shaped with a portion removed from the body of the guitar where the lower section of the fingerboard meets the body of the guitar. The term "single cutaway guitar" denoted that portion of the guitar between the neck and its lower part, that appears to be missing from the natural, round body contour. The removal of this portion forms what is often referred to as the "horn."

What is good design?

"The possibilities for innovation are not, by any means, exhausted. Technological development is always offering new opportunities for innovative design. But innovative design always develops in tandem with innovative technology, and can never be an end in itself."

OBJECTIVE

Seeking a full- or part-time graphic/web design position with in-depth, creative design opportunities, as well as a chance to express myself and continue learning.

SELECTED SKILLS

Adobe:

Illustrator CS6
Photoshop CS6
Fireworks CS6
InDesign CS6
PageMaker 7
Dreamweaver CS6
Flash CS6

Corel:

Painter X
Draw X4
Paint Shop Pro Photo X2

Other:

Quark XPress
WordPress
W3C Valid HTML and CSS
Management and leadership training
Word processors including:
Microsoft Office
OpenOffice

Extensive experience with PC and Mac platforms.

EXPERIENCE

Full-time position with the Amsterdam Recorder (May 2010 - Present)

Skills:

Ad layout and design
Newspaper and miscellaneous publication page layout
Web ad design

Contact: Andrew Hanna, Andrew@recordernews.com
